.....
Insurance. The novices on the course do get third party insurance however this does not cover you for repatriation and in the case of the self employed you might want to consider lost of earnings insurance. This is for your peace of mind. Accidents happen when you least expect them. That's why they are called accidents. We advise you all to take out your own insurance and get it tailored to suit you. Some companies can be found on our web site. Please ask around for the best deal.
